EDGE SERIES

**Area Flood Light
High Bay Light**

ANY APPLICATIONS ANYWHERE EDGE HAS YOU COVERED

Edge is a universal luminaire for both indoor and outdoor use such as flood lighting, area lighting, high bay lighting and security light. It delivers a high power lumen package for commercial and industrial applications. 50W to 450W, 140Lm/W efficacy, and choice of 15 optics produce precise illumination for any types of site or application.

Highly efficient one-for-one replacement for conventional industrial luminaires - and with a higher efficacy than its predecessors, it promises a quicker payback than ever.

PRODUCT FEATURES

- Heavy-duty built for demanding applications.
- IP66/IP67 rated for wet environments and all weather conditions.
- 3G/5G vibration rated.
- 15 types of optic lens at choice.
- Choice of mount accessories accommodate wall mount, surface mount, or pole mount.

PHOTOMETRICS

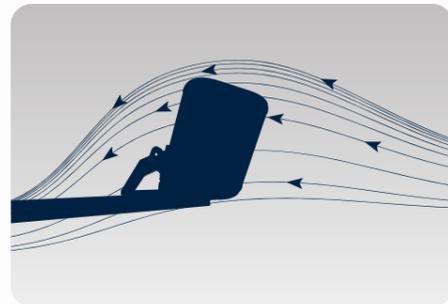

Suitable for a wide range of applications, Edge flood light offers a choice of 13 optics for efficient and effective lighting. Precise light control and optimum light distribution help maximise comfort and energy savings.

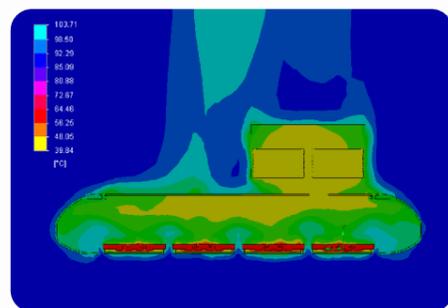

WIND RESISTANCE MINIMIZATION

It is essential to consider the wind resistance of the flood lights and their suitability for existing or proposed installation in the outdoors.

Please note that flood lights mounted horizontally on the ground, such as asymmetrical distribution help to reduce wind resistance and allow better control of spill light.

THERMAL OPTIMIZATION

The proprietary thermal efficiency design with passive cooling maximizes heat dissipation to ensure safe operation and good lifetime performance of the luminaire in high temperature environments.

INSTALLATION

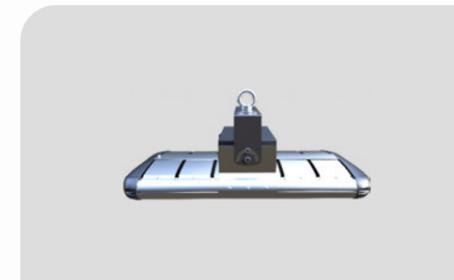

For high performance and long term reliability, the light should be installed in free air.

Hanging Ring Mount

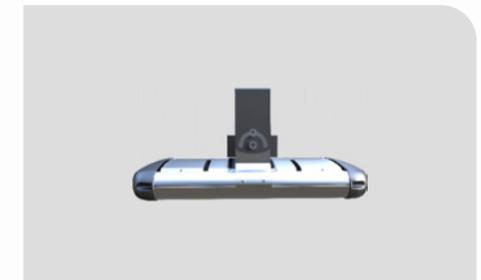

1. Tighten the NUT attached to the hanging ring to ensure the hanging ring is securely connected to the light fixture.
2. Hang the ring to the field supplied by the mounting hook or chain.
3. Wiring.(Connect supply wires to luminaire wire leads per the wiring diagram using methods that comply with all applicable codes.)

Universal Bracket

1. Rotate the bracket to the desired angle and tighten screw to lock it.
2. Bolt the universal mounting bracket to the field mounting point. Bolt the center point before the two side points. Tighten the bolts to wrench tight.
3. Wiring.(Connect supply wires to luminaire wire leads per the wiring diagram using methods that comply with all applicable codes.)
